

## In-School Commitment

Each season, a BAI associated with a school for tournament registration must commit to ensuring the in-school requirement is met for a school before it is eligible to register for tournaments. The school will be blocked from registering for tournaments on [nasptournaments.org](http://nasptournaments.org) until the commitment has been made.

The commitment is made within School Manager on [nasptournaments.org](http://nasptournaments.org). Once the commitment has been made for a season the school will unblocked from registering for tournaments.

## FRANKFORT TEST SCHOOL In-School Commitment

The in-school commitment must be submitted before a school is eligible for competition each season. If you agree and submit to the in-school commitment for this school you will be responsible to make sure that the in-school requirement is met during that season. If you submit this agreement and the in-school requirement is not met and reported your BAI certification will be suspended and the school will not be eligible for competition the following season. For information about the in-school requirement see rule 1.1 in the national rules at [naspschools.org](http://naspschools.org).

### 2018-2019 School Year

I, CHIP QUARLES (BAI ) understand the in-school requirement and will teach, or have verified with the person that will teach the in-school curriculum per the NASP® in-school requirement and will submit this information on the annual BAI report before the end of the school year.

I understand and agree for this school.
